From the Editor,

Well here we are again, now publishing our 2nd edition of the rejuvenated Australian Ayrshire Journal. We have taken lots of feedback, mostly positive, about the new publication and we have tried to include all the suggestions that have been made to us. We hope you enjoy reading it and keep the feedback coming.

Once again we must thank all the members, breeders, corporate sponsors and industry leaders who have kindly supported the journal with advertising or donations. Without that support the publication would not go ahead. Thank you. Thanks also to my Deputy Editor and Scrutineer Mick for his patience and help.

This year has seen many highs and lows, extremes in the climate, both environmental and economical. Despite this the Ayrshire breed in Australia has continued to forge ahead with so many of our major competitions, both in our states and on a national basis supported with increasing numbers. Our youth continue to represent our breed so well with ever increasing support & success in youth competitions. Congratulations to you all.

So happy reading and here's to Edition number 2.

Janine Eagles

Editor – Australian Ayrshire Journal.

AYRSHIRES INTERNATIONAL

Greetings to everyone in Australia! I am so happy to send you a note congratulating you on becoming members of the World Ayrshire Federation. The Federation is pleased to have your support and hope we can help all breeders promote the outstanding genetics you have developed in Australia.

Make sure you bookmark on your computers the WAF website and visit it to check out the activities of other members and plan for upcoming events. The WAF directors are planning a meeting in 2014 that will be hosted by the UK Ayrshire Society and it is never too early to start planning to attend the next World Conference September 2016 in the US. Early information and schedules will be posted soon on the website.

It was great to see the quality of entries in the WAF photo contest. Australia was very well represented and we congratulate you on your success. Keep up the good work!

Regards,

Mary Creek

President, World Ayrshire Federation

Presidents Message

Welcome all once again to another Australian Ayrshire Journal, bigger and better than last year. Our hard working editor, Janine Eagles, has continued her excellent work from last year to produce another great magazine. We are again greatly in her debt for her commitment to the Journal and also the time & support that both her & husband Mick give towards the Ayrshire breed.

The breed has had another successful year with great support given to all shows throughout Australia. At International Dairy Week Ayrshires had the 3rd highest number of entries and our stand alone sale held after judging was a great success. Well done to all who make the effort to exhibit their cattle as I know it takes a lot of time & commitment to attend shows.

Federal Council has accepted the Show Code of Ethics presented by a committee that has been working on a standard set of rules for all breeds at all shows. IDW was the first show that the rules were instigated with random testing being done. I'm sure that our breed has had no problems in the past and it is good to know that every breed will now be subject to the same rules.

A very successful classification workshop was held during the week of IDW with the Holstein Classifiers. We would like to thank Phil Hentschke & Warren Schutz for the use of their cattle & farm to conduct the workshop. Michael Hentschke is currently working with Holstein Australia to change some of the scores weights attached to the classification, to better represent the characteristics of the modern Ayrshire.

As I sit here writing this, Murray Goulbourn have just announced their opening price for the 2013/14 year. The amount of \$5.60 or approx 42c litre is well up on the opening price last year. This price per litre may not seem high to our breeders in NSW & Qld who seem to have been getting much more than this last year but for our breeders in Victoria & South Australia it will be a huge relief.

Although the dairy industry has been struggling during the past few years interest in our wonderful breed has still remained high with good numbers being shown at all major shows and strong demand at breed sales. With the healthier outlook of the industry now is a perfect time to keep our breed in the forefront by continuing to present our cattle at shows and making more Ayrshires available for sale. We must try and organize more breed sales throughout Australia as I'm sure there will be an increase of demand for our heifers.

Finally I would like to thank your Federal Council members who have been very active this year. The new larger Council is working very well. Thanks to Ray Zerner, Mick Eagles, Brett Hayter, Paul Timbs, Mike Perry, Kelvin Haberle & Mike Hentschke. Also again thanks to Eric Ross who has continued to be our board representative at LBC.

All the best to you all for the coming year. Let's make it another successful year for our Ayrshire breed.

Greg Edmonds

FROM THE OFFICE

R1 & R2 Appendix

We wish to remind all members of the rules for introduction of Red Breed Genetics to be included in our Herd Book.

To be eligible for registration into R2 appendix the blood percentage must be within the range of 50% to 74% Ayrshire.

To be eligible for registration into R1 appendix the blood percentage must be within the range of 75% to 87.4% Ayrshire.

Blood percentage of 87.5% Ayrshire and above will be accepted for registration into the herd book.

As with all registrations it is up to the individual member/owner to make sure that all particulars of the registration are accurate and correct. Federal Council is currently looking at including % on registration certificates.

Photo Competition

There have been some changes to the Rules of the photo competition plus some extra classes added.

In future entries for Photo Competition will no longer have to qualify at a show. If anyone has a great cow at home and they would like to take the time to have a quality photo taken, she will be able to be entered into the competition. Likewise for a pen of three – any three cows taken together in a photo can be entered. (Quality stand up photos please)

The only class that will still need to qualify at a show is the Youth competition where the heifer entered must be lead at a show/calf day by the youth who has entered the photo.

To help with entries for the World Photo Competition a new class for heifer under 1yr is now going to be included and there will also be a new class for an unaltered photo. This class will make it possible for breeders who do not show, and have a great cow, to be able to enter females with just a paddock photo taken or even breeders who do show but may have a cow they haven't shown to also be entered. Entries in this class will be open to animals that are not entered in the stand up section.

The farm scene photo will now split into 2 classes Ayrshire Farm Scene & Farm Character.

Progeny Test Semen

Members are asked to please support, purchase & use the ABS young bull AYBOM Geelunga Modem Bom. Semen sales so far have been good with reports of him being very fertile with calves looking good. Federal Council is looking to get other young bulls into the system but semen companies will only take on these young sires if semen is sold in demand. We need to support this venture as if we don't help ourselves, no one else will!!!!

Show Code of Ethics

Federal Council has officially adopted the Show Code of Ethics for all shows held in Australia. Already the rules have been enforced at IDW & Sydney Royal. If anyone would like a copy of the Ethics please contact your local Federal Councillor who will for a copy to be sent.

IDW Sale

We will again be looking at having an Ayrshire Elite Sale at IDW. This sale has been very successfully held every year for the past 5 years and it would be disappointing if we were unable to get the numbers to be sold, so could members please start looking at possible entries for the sale. We need at least 10 quality females for the sale to be held.

State Judges Panel

Our Federal Judges panel has recently been updated and Federal Council is asking State Branches to compile a list of names to be included on a State Judges Panel. These lists will then be distributed to all State Branches to help in the nomination of Judges for local shows, calf days & herd competitions.

Star Brood Cow

We have currently amended the criteria for qualifying for the award of Star Brood Cow. Look for the updated information later in the journal.

Classification Results

There have been quite a number of Ayrshire cattle classified over the past 18 months. It is fantastic that the Ayrshire cow is getting the recognition that it deserves. See Mike's updated Classification report also later in the journal.

Secretaries Report

This year Memberships to Ayrshire Australia was 123 slightly up from last year at 110. Registrations have really gone well this past year with 718 compared to 433 last year. This years figure included a large herd of catch -up registrations but all in all it is a good sign that we are holding our numbers with even a slight increase.

100 Years On.. The Zerner Family

IN AN INDUSTRY THAT OFTEN FACES UNCERTAIN TIMES, THE CELEBRATION OF A CENTENARY IS AN ACHIEVEMENT NOT TO GO BY LIGHTLY. THE ZERNER FAMILY TAKES US THROUGH THEIR LAST 100 YEARS.

In 1910 George Zerner came to Pie Creek and in 1912 he married. He and his wife Kathleen had 4 children. The eldest George Fredric Henry (known as Henry) was born in 1913. The farm was covered in scrub which was cleared and the hills were planted in bananas. George first registered Ayrshires under the Sumerlea prefix in 1913. In 1919 they put in their first milking machines.

1st Generation of the Zerner Family to breed Ayrshires was George Zerner.

When Henry married Hazel Bath in 1940 the farm was split into two blocks of 200 acres and Henry and Hazel (pictured below) built their home and dairy on the second block where they continued milking Ayrshires.

They had three children Raymond, Neville and Trevor. Henry, his brother Les and their father showed Ayrshires at the Gympie show. The cattle still had horns and there was a lot of work to polish the horns when showing. Because the Ayrshires were renowned for their magnificent horns, when Henry began dehorning them he was criticized for spoiling the "Ayrshire look". It wasn't long before others followed, as it prevented injury to both farmer and animals.

In 1950 Henry and Hazel registered their first animal under the Pineville prefix. Their first registered animal was Pineville Hope born in 1950. They continued showing at Gympie. When his father became ill Ray left school at the age of 14 to help run the farm. Neville became an electrician and Trevor a carpenter.

Pictured below is Henry with the 1957 Gympie Show Champion Ayrshire Cow

In 1952 Henry became the first to install irrigation – many locals thought he was mad watering grass for cows but soon every farm had irrigation. In dry years there was severe restrictions. In the early 1970 after much lobbying the government built a diversion scheme bringing water from the Mary River to Pie Creek via canal and pipeline. This was supplied at \$6.50/meg with 43 farms making use of the water. Today only 2 farms remain and lifestyle farms benefit with the price approximately \$200/meg.

Gympie was a prolific small crop growing area and Henry and his family grew bean for the Melbourne & Sydney markets. They milked about 60 cows and this supplemented their income. In 1965 Ray & Robyn married & they purchased an adjoining 200 acres. This allowed them to milk up to 180 cows. Henry was also

one of the first to use AI with a local technician. This was the start of big improvement in type and production. When Ray learnt to AI it allowed better conception and greater use of imported bulls along with a huge improvement in the herd. Henry saw great changes in dairying, going from cream and pigs to whole milk in cans and was one of the first to change to bulk milk tanks and the mechanical changes from draught horses to tractors.

Ray and his father showed Ayrshires at the local shows for many years and later Ray and Robyn began taking a team to Brisbane Exhibition (the Ekka) with 2013 being the 26th year. They have held the Brisbane ground milking record for 10 years achieved by Pineville Joyce's Queen 3 in 1989. This cow was the Dam of Pineville Queens Rebel (Rebus). Another well known AI bull bred by Pineville was Pontoon's Teddy. Some of the most successful bulls used at Pineville were Pant Wizard, Rebel, Heligo, Trident and Yukon and Muellers BBK Teddy Bear.

One successful cow Pineville Pontoon was by Pant Wizard and she was the dam of Pontoon's Teddy Bear, sired by Muellers BBK Teddy Bear. Pineville Pastel, (dam Pineville Pontoon, sire Rebel) was awarded Australian cow of the year in 1997. Pineville have had a prolific show record with many champions, production awards and supreme champions – Pineville Blitz (pictured below).

Pineville Pastel, Pineville Pontoon and Pineville Joyce's Queen 3. Pineville Popsicle (below), a fully imported ET by Heligo was a regular in champion lineups. Pictured below is Pineville Popsicle (Supreme Champion Dairy Cow Gympie Show 2001) with (l-r) son Gary Zerner, Ray, Henry, Robyn, daughters Lisa & Marita with Grandchildren Blake and Mitchell.

Pictured above is Robyn Zerner with their daughter Helen celebrating Helen's 40th Birthday.

Pictured here is Pineville Popsibear 2 (great granddaughter of Pineville Popsicle) who following in family footsteps was recently awarded Reserve Supreme Junior Champion at 2013 Gympie Show.

Ray and Robyn enjoyed success with the use of imported embryos and saw many progeny of well known bulls during trips to Canada and USA.

Pictured below is (l-r) Pineville Witchita's Willy, Pineville Thistles Ted and Pineville Nevada 4.

In 1979 Henry and Hazel retired and moved to town. Henry still took an active interest in the farm for many years. They were very community minded and were involved with School P&C, QDO, Water Board, Rural Fire, Show Society and Henry was a director of Wide Bay Dairy factory (Ray replaced Henry on the factory board on his retirement).

In 1985 another property on the Mary River was purchased. This would later be where Ray and Robyn would build their retirement home.

The photos pictured here are of the original farm where Henry and Hazel settled and built the dairy.

Ray and Robyn sold their herd to Peter and Sue Graham in 2005 and ceased dairying. They retained a nucleus show team and continue showing at local shows and at Brisbane Royal. The home farm was sold and they retired to the river farm.

Ray and Robyn have 3 girls and one son and now have nine grandchildren. Henry passed away in 2011 a month before his 98th birthday. Hazel predeceased him 10 years previously. Pictured here on the left is 4 Generations of the Zerner Family – (l-r) Gary Zerner, his son Bryce, Henry and Ray. George would make 5 Generations to be actively involved in breeding, registering and show Ayrshire Cattle. On the right are Ray and Robyn's Grandchildren (back l-r) Mitchell and Blake Adams, (front l-r) Jackson Forchert, Bryce (twin) Zerner, Georgia Forchert, Alexis (twin) Zerner and Darcy, Ruby and Stella Cole..... A beautiful family.

....TO CELEBRATE 2013....
